

CUE-Branch Home Banking

EPL's home banking product, *CUE-Branch*®, provides members with instant access to their account on a PC through the Internet 24 hours a day. This module provides remote-access functionality to aid in servicing distant members while serving local residents in a cost-effective manner. EPL provides the necessary equipment, Internet servers, and security and utilizes our T1 connection to the Internet.

Key Features

Via their PC and an Internet service, the member can perform the following:

- Account Balances and History
- Download history to Quicken® or Microsoft Money®
- Transfers including future dated transfers
- eStatement Registration
- Auto eStatement Enrollment
- Balance alerts
- Periodic (weekly, monthly, quarterly, annually) email address verification
- Initiate loan applications
- Stop payments
- Check reorders
- Gather marketing information about credit union services
- Obtain branch and contact information
- Secure interactive messaging with credit union staff
- Utilize credit union established links to other sites
- Spanish language options (coming soon)

Benefits

- Member can conduct credit union business from home or work
- Extended hours of service for member
- Eliminates need for dedicated lines and modems for member access
- Reach members anywhere in the world via the Internet
- Provides better service while reducing the interaction with your staff

Optional Services (Additional Cost)
